

Sentry™

COMPOSITE DOORS

Our Composite Doors...

Foam Core

- This option offers significantly better U-Values than any other composite door counterparts on the market
- Minimal maintenance alternative to a traditional door
- Outstanding thermal performance and minimal thermal expansion
- Robust design for enhanced security and peace of mind
- Made with smooth or grained high quality GRP skins that ensure minimal delamination or damage
- Largest range of door styles, colours and glass options on the market.

Solid Timber

- CoolSkin technology with a GRP-inspired woodgrain finish
- Available in a wide range of popular DoorCo designs including three exclusive styles
- BRiTDOR is prepped to work with any frame, lock and suite of hardware, allowing customers to design their door, their way
- Largest range of popular, standard colours available for solid timber core doors, giving you thousands of combinations
- Slabs available in 914 x 2095mm allowing for demand of taller and wider entranceways to be satisfied

Choose your door style...

CYLINDERS

The Yale Platinum 3 Star Euro Profile cylinder is a TS007 3 star Kite-marked Anti-Snap security product to provide maximum security against known cylinder attack methods. The Platinum 3 Star cylinder is independently tested by BSI to be awarded the British Kitemarked TS007:2014 3 star accreditation.

Features and Specifications:

- TS007 2014 3 star approved
- BSEN1303:2005 approved
- Anti-Snap, sacrificial front section
- Anti-Pick, Anti-Bump, Anti-Screw, Anti-Pull and Anti-Drill
- Superior strength with cylinder stability system for superior protection
- Horizontal keyway
- Flat reversible dimple key with new stylish nylon key bow
- Key card for easy code identification and key duplication
- Available in euro double and euro turn
- Available in Brass and Nickel finishes

HINGES

Special Features Summary

Height and lateral adjustment achievable with door closed (Full Float Technology for visual alignment)

- No unsightly gaps visible following adjustment
- PAS 24: 2016 compatible as part of a door assembly
- Double knuckle construction for increased load bearing
- Fitter and installer friendly (Lift On, Lift Off door design)
- Available in White, Black, Brown Oak (UV stabilised), Polished Chrome, PVD Gold and Satin Silver, (any RAL finishes available upon request)
- Guarantee* 10 year mechanical
- Patented unique design

Adjustments:

- **Height: +/- 4mm**
- **Lateral: +/- 4mm**

**Check the status of your home, anytime, anywhere.
Designed, developed and tested in the UK to Yale's
exacting standards.**

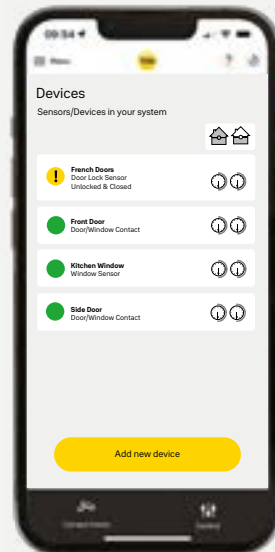

Sentry™ Door Sensors - Intelligent-Ready

Sentry™ Sensors puts the homeowner in control of their home security. Monitoring the status of their doors from anywhere at any time via the Yale Home App. Receiving notifications and tamper alerts straight to their smart device, or chime notifications when the status of your door or windows change.

Sentry™ Sensors are simple to install in our intelligent-ready doors, easy to set up and control through the Yale Home App.

Sentry™ Door Sensor range is now compatible with Yale's Lockmaster door locks, as well as Yale's Mantis 4 door locks, Yale Rapide, and Yale Shootbolt and works with Amazon Alexa, Google Assistant, and Philips Hue.

Easy Set-up

Wireless smart connectivity

Geo-fencing security alerts

Real-time notifications of status changes

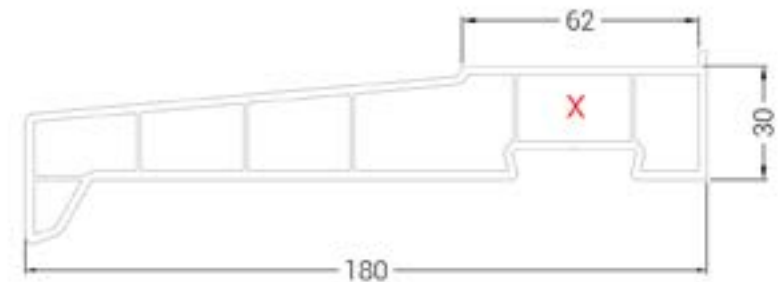

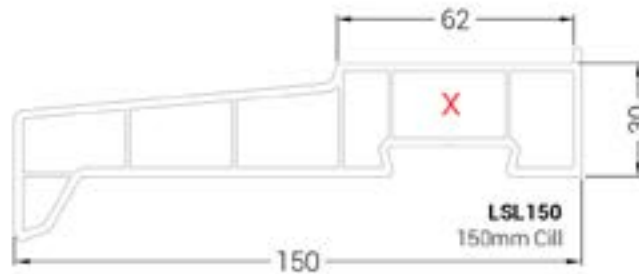

Choice of fully or part armed

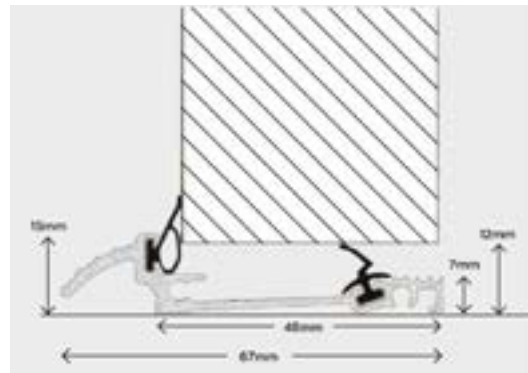

Integrates with smart technology
around your home

PVCu Thresholds

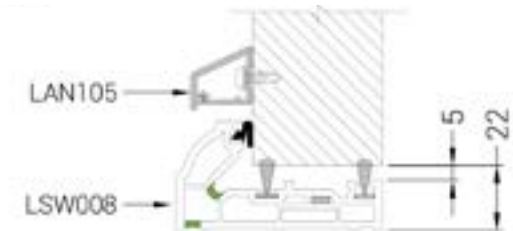

Whatever your threshold needs may be, Sentry has the perfect solution. We have a choice of 3 different size external cills. 85mm stub cill, 150mm - which is standard, and an extended 180mm cill to suit your requirements.

NORMAL THRESHOLD

LOW ALUMINIUM THRESHOLD
PART M COMPLIANT

ULTRA SLIM U-PVC THRESHOLD

You then have a choice of three thresholds, as above. This is the section you step over to enter your property. We have Normal, Low Aluminium and Ultra Slim Thresholds Available.

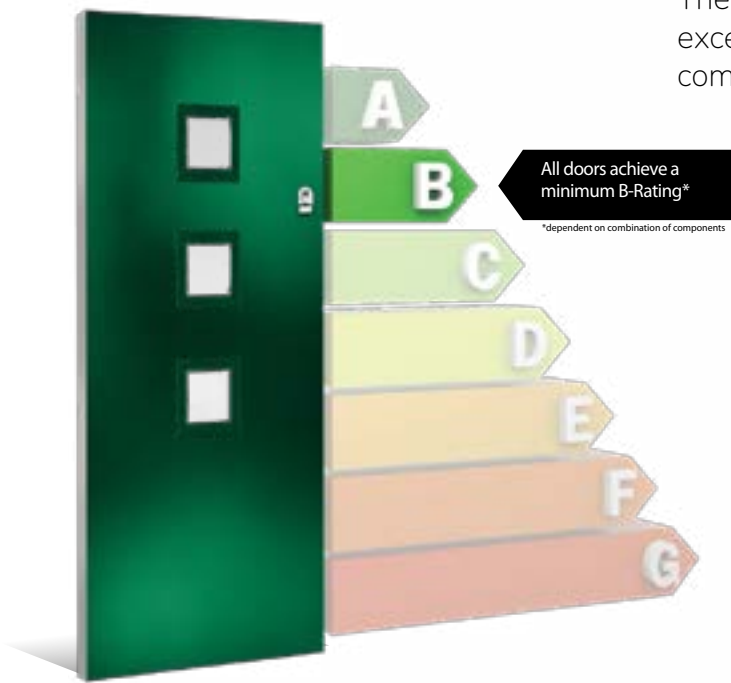

Thermal Efficiency

Sentry Composite Doors are thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than any other option on the market, meaning your entranceway is more thermally efficient.

Our full door range complies with Document L and the requirements of the current Building Regulations.

Sentry Composite Doors offer a truly appealing entrance for any home, with a high-definition smooth or grained GRP outer skin that will look stunning for years to come. The door offers stability from the elements with protection against any water ingress. The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills in the home in comparison with any other door on the market.

Security

We take security very seriously. The Eco composite door comes with security features which stand up to current and future security standards, including PAS 24 in line with Approved Document Q. We recommend the use of multipoint locks (locks should always be engaged so the door is not left just on the latch) and security hardware including TS007 high security cylinders and handle combinations and TS008 letterplates. A slam shut lock option is available for a contemporary look, however, please note that slam shut locks should be used with caution as the operation of these may not suit certain individuals. We recommend an aluminium lock strip is used in conjunction with heritage locking systems.

Important notice - when selecting this threshold option, you confirm and acknowledge you understand there is only 9mm from the bottom of the door sash to the bottom of the outer frame. It's your sole responsibility to ensure you have sufficient clearance from the underside of the door sash to the floor.

Cleaning and Maintenance

Your new door should keep you safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

Door frames should be washed with warm soapy water.

The door leaf should only be cleaned using warm water or non-aggressive composite door wipes.

No solvent-based product or abrasives should be used as these will damage the surface of the skin.

External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.

Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.
