

CHAMFERED VS SCULPTURED PROFILES

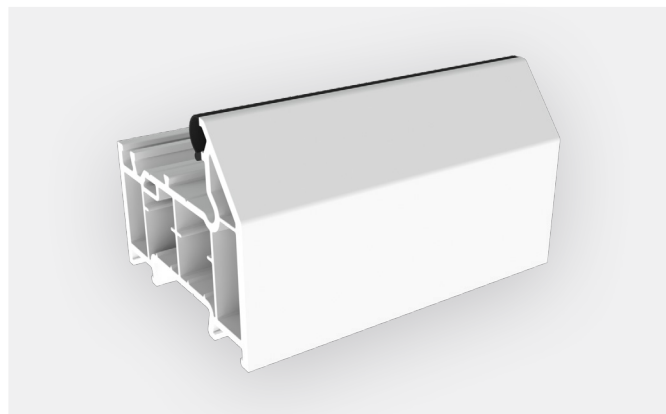

Q: What is the difference between Chamfered and Sculptured profile?

A: It's the difference in shape of the rebated section of the profile. Sculptured is a more classic look and Chamfered is a more modern look.

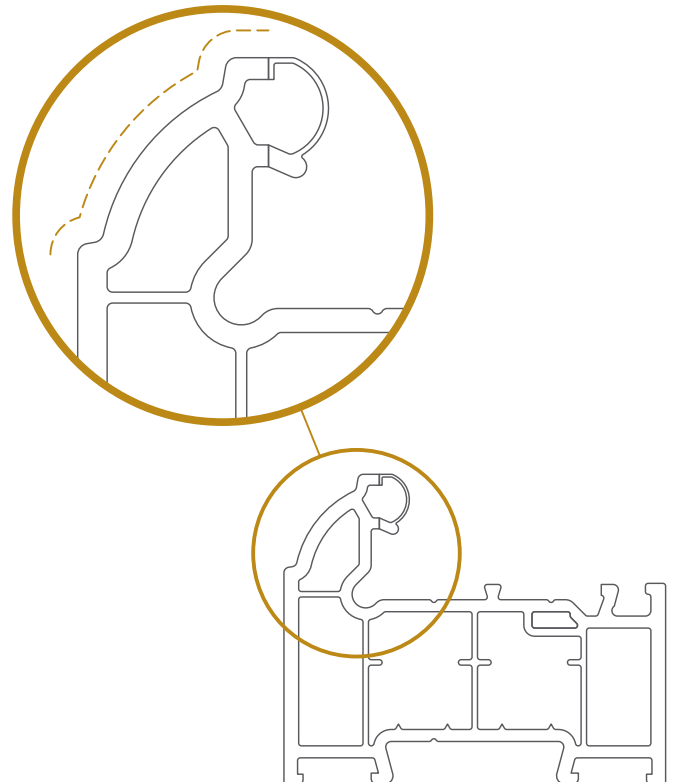

Chamfered Profile

Example profile shown is LCW01 I
LCW - Liniar 'Chamfered' Window

Sculptured Profile

Example profile shown is LSW01 I
LSW - Liniar 'Sculptured' Window
