Alumina Doors

Made from aluminium, the Alumina by Linar range delivers high thermal efficiency with the only sculptured aluminium bi-fold created to fully match PVCu windows.

The very latest product development from Linar, the Alumina bi-fold was created to offer a true aluminium bi-fold for large apertures where the panes can reach up to 2.5m high for floor-to-ceiling glass.

The only fully sculptured aluminium bi-fold doors on the market, Alumina will match the exact shape of Linar sculptured windows, with the features symmetric to your windows and doors, you can choose to have your alumina doors in a foiled finish to provide you with a seamless colour match to your windows and doors, that no other aluminium door can offer.

With the same hardware as the ModLok™ bi-fold system you can rest assured of the highest security features, including three opposing hooks and two shootbolts built into every master door, plus two anti-lift shootbolts on every slave door.

Designed from the ground upwards with thermal efficiency firmly in mind, the Alumina system breaks the usual rules of standard aluminium bi-fold doors and addresses tomorrow's performance requirements today. An innovative combined lock and thermal insert, or barrier, gives the Alumina door a supremely high energy rating and U-values as low as 1.2 W/m²K. The Linar design team has combined the ultimate specification of security with a high strength engineering polymer lock body – so the lock itself acts as a thermal break, boosting the door's thermal performance compared to traditional aluminium doors.

With configurations spanning up to 7 panes across, and each individual sash up to 1.2 metres wide and 2.5 metres high, your Alumina bi-folding door can open up an entire wall of your home up to 6 metres in width.

Also available as single door or French door sets.

ERA

The unique design of the ModLok™ Bi-Fold earned the doors a Queen's Award for Enterprise in Innovation, making Liniar one of only approximately 1,400 companies bestowed with the honour in its 51 year history.

For orders to be eligible for "Lifetime Security Warranty", please note these goods need to have been specified as Secure by Design at the point of sale, together with an order placed to the manufacturer by the installation company stipulating the upgraded security options, this must include all high security Yale Hardware and 3 star door lock cylinders, the manufacturer is not responsible for the sale of goods to the consumer, this is the responsibility of the installation company to specify these products, no lifetime warranty is available for goods that have not been upgraded to Secure by Design Yale products at the point of order with the manufacturers.

"Please note, the Lifetime Security Warranty and extended mechanical warranty offerings are subject to installer application and being an approved installer of the scheme. It's the consumers responsibility to ensure that all products are maintained in conjunction with the maintenance guidelines together with the terms and conditions as set out in the Homeowner Guide, copies of which are available via the QR Code within your windows and doors. The warranty does not cover breakage or failure due to misuse or neglect of maintenance of any moving parts.

Please note, Bi-Folding Windows, Bi-Folding Doors, Tilt and Turn Windows, Stable Doors and Patio Doors are currently under development with Yale, however you can retrofit face fixed sensors which will enable you to upload these into your App for a full complement of products in your home. Please note, these products only display open and closed positions in your App. Available direct from Yale via the links in your QR Codes located inside your windows and doors.
