## ModLok™ Innovative Hybrid Bi-Folding Doors

Sentry's second generation bi-fold combines the structural benefits of an aluminium door set with the thermal efficiency of PVCu up to 7 panes wide. The Sentry Modlok™ bi-folding door includes a seamless reinforcing and locking mechanism.

This not only offers the highest security standards, but enables the doors to span even larger and wider sizes. Built in anti-lift features and anti-bump cylinders combine to bring you peace of mind. Modlok™ also offers enhanced security features, including three opposing hooks and two shootbolts built in to every master door, plus two anti-lift shootbolts on every slave door. The exo-skeletal system ensures only the master door will open first, so there's no chance of spraining locks by trying to open the wrong door - and folding keys mean no dents!

With Sentry's foiled woodgrain-effect options, your bi-folding doors can emulate the natural look of timber. The Sentry Modlok™ bi-fold can achieve a supremely energy efficient U-value of 1.0 W/m2K with triple glazed units.

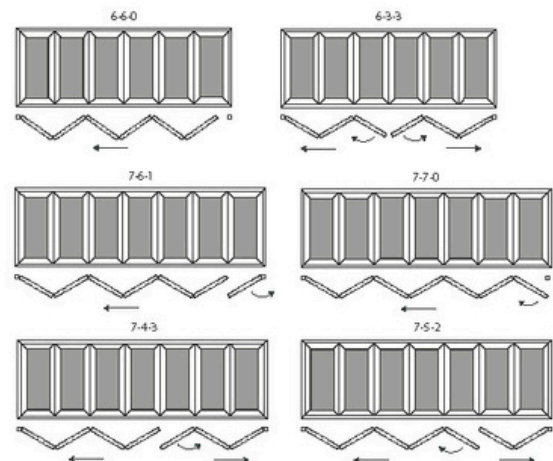

### Handle Colour Options

Chrome Gold Black White

### ModLok™ Configurations

ERA

The unique design of the ModLok™ Bi-Fold earned the doors a Queen's Award for Enterprise in Innovation, making Liniar one of only approximately 1,400 companies bestowed with the honour in its 51 year history.

# ModLok™ Innovative Hybrid Bi-Folding Doors

As standard, your windows and doors have been manufactured intelligent ready, approved by Yale we are delighted to demonstrate The Sentry Windows and Doors, please scan the QR Codes for in house demonstrations on how you can upgrade a host of different options.

### Is my home safe and secure?

Feel the answer, at home or away, with Sentry Intelligent Windows and Doors, approved by Yale. Sentry Intelligent Sensors put you in control of your home security, monitor the status of your doors and windows from anywhere, or at any time, via the Yale Smart Living Alarm App, receive notifications and tamper alerts straight to your smartphone, or chime notifications within your home, when the status of your door or windows change.

Feel secure with Sentry intelligent Windows and Doors in your home, when your new windows or doors are fitted, simply scan the QR code inside your window or door, click on the Yale / Sentry tab on the top left to see all the options, this will take you to a submenu page where you can access everything from where you can purchase your Sentry Sensors to the app store, tutorial videos, FAQ's and much more.

**ERA**

The unique design of the ModLok™ Bi-Fold earned the doors a Queen's Award for Enterprise in Innovation, making Liniar one of only approximately 1,400 companies bestowed with the honour in its 51 year history.

For orders to be eligible for "Lifetime Security Warranty", please note these goods need to have been specified as Secure by Design at the point of sale, together with an order placed to the manufacturer by the installation company stipulating the upgraded security options, this must include all high security Yale Hardware and 3 star door lock cylinders, the manufacturer is not responsible for the sale of goods to the consumer, this is the responsibility of the installation company to specify these products, no lifetime warranty is available for goods that have not been upgraded to Secure by Design Yale products at the point of order with the manufacturers.

"Please note, the Lifetime Security Warranty and extended mechanical warranty offerings are subject to installer application and being an approved installer of the scheme. It's the consumers responsibility to ensure that all products are maintained in conjunction with the maintenance guidelines together with the terms and conditions as set out in the Homeowner Guide, copies of which are available via the QR Code within your windows and doors. The warranty does not cover breakage or failure due to misuse or neglect of maintenance of any moving parts.

Please note, Bi-Folding Windows, Bi-Folding Doors, Tilt and Turn Windows, Stable Doors and Patio Doors are currently under development with Yale, however you can retrofit face fixed sensors which will enable you to upload these into your App for a full complement of products in your home. Please note, these products only display open and closed positions in your App. Available direct from Yale via the links in your QR Codes located inside your windows and doors.
