Wide Colour Choice

Made in Britain

Sliding Patio Door

Strong, smooth and effortless

Designed and made in Britain, Liniar's sliding patio door system is highly engineered, thermally efficient and secure. Invite natural light in and open your home to the outdoors whilst maximising room space, with up to 4-pane doors available.

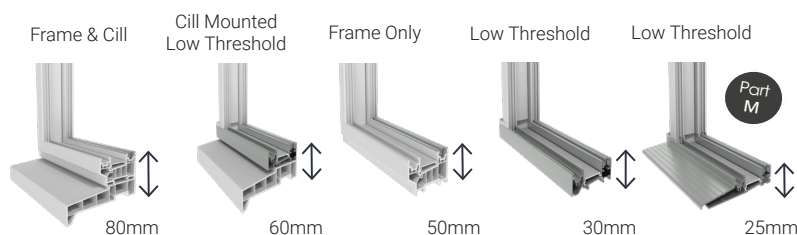

Sliding Patio Door

With a multi-chambered design that minimises the transfer of cold and heat, the Liniar sliding patio door delivers thermal performance which contributes to an energy efficient home and an ideal year-round ambient temperature.

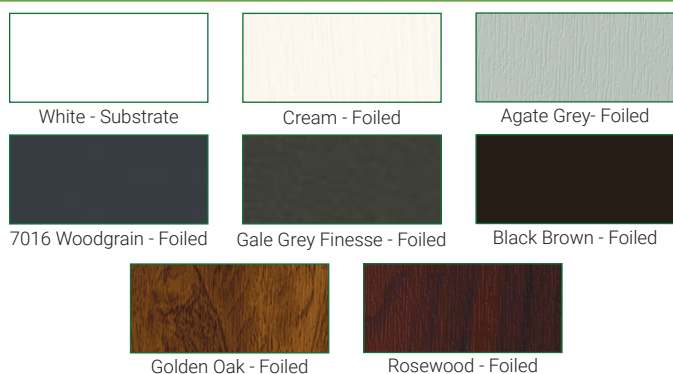

Technical Information

Threshold Options

8 Colours From Stock

- High thermal efficiency helps reduce energy bills and carbon footprint
- Highly secure, with hardware options to meet PAS 24 standard available
